

DOCTOR ON WITNESS STAND DECLARES PAINTER DID NOT END HIS OWN LIFE.

Q.—What was the condition of the lungs? A.—The bullet passed through the

Jury which is to consist of six persons of Mrs. Florence Dodge, deceased of matrimony William A. Heath while he was at work in her home.

Tears flowed from Mrs. Heath's eyes during all of the doctor's testimony. Several

Q—Did the bullet come out near the breast bone or near the end of a rib? A—Near the breast bone.

Q—Will you give the direct course of the bullet? A—It passed along the fifth rib.

Questioned by Ames:

Q.—Did you go into the house? A.—Yes, through the front door to the bedroom. James Dodge and Fred Powers were in the bedroom. I saw Heath on the door. Judge Hall asked the attorneys for the

Told to Keep Weapon.
Cross-examined by Howe:
Q.—Why did you take the revolver home with you? A.—Mrs. Dodge told me

F. T. Idenham, 66 H. Third St., North Boston, Mass., says: "I gladly retract the public statement I gave to probe of Duane's case."	Mrs. Conrad Barker, 88 Chestnut Square, Jamaica Plain, Boston, Mass., says: "I will never be able to explain Duane's kidney trouble."	P. H. Hines, 145 Hemen St., East Boston, Mass., says: "Some years ago I had severe pains in my back and limbs and my kidneys were found to be diseased."
--	--	---

my whole lot and sold it. It was almost impossible for me to go to the store after dinner. Being Donor's Kidney Pills advertised, I purchased a supply, and it did not take long before I began to feel better. I willingly give this remedy the praise it deserves."

Mr. James Lawler, St. Paulina Mo., East Boston, Mass., says: "I recommend Dennis's Kitchen Pill just as highly today as I did some years ago when I gave a public statement in their praise. The cure this remedy effected has been permanent. The physician, Dr. Craig St. Edmund Mo., Boston, Mass., says: "You are at all times continuing something I do I have previously said in praise of Dennis's Kitchen Pill. I suffered from kidney complaint for a long time and my body was constantly racked with pain. I have no memory that I could not tell for five minutes, and I always had a dull, dragging pain in the small of my back. I could never continue my occupation and the misery would not leave me. I have been cured by the use of Dennis's Kitchen Pill. Mary Mason, 173 N. Main St., North Boston, Mass., says: "I have just so much faith in Dennis's Kitchen Pills today as I did two years ago, when I publicly endorsed them. I am pleased to say that my cure has been permanent. My kidneys were badly diseased and I have been cured by the use of Dennis's Kitchen Pills."

You can believe in the merits of a medicine that is so strongly recommended at home. If the testimony came from California, or Texas, or Florida, you might have some reason for doubting. But the proof is HERE. You can investigate it if you

RED SOX LAST HOME GAME FOR A MONTH

By R. W. LARDNER.
They are going away. After today's game with the Boston Red Sox will leave Boston to return to their homes for the first day of their winter break. They will be leaving for New York and will be back in the city for the first time in a long time. They will be leaving for New York and will be back in the city for the first time in a long time. They will be leaving for New York and will be back in the city for the first time in a long time.

Twenty on Trip.
Manager Donovan will take about twenty athletes with him. It is hardly likely that Hugh Bradley will make the trip, for he hasn't felt like getting into a uniform, although he has been a constant attendant at the games here. This season that Alva Williams will continue at first base. Wagner will make up the rest of the team. The Sox are going up against some real tough teams and are sure to have a good season. The Sox are going up against some real tough teams and are sure to have a good season. The Sox are going up against some real tough teams and are sure to have a good season.

Will Meet White Sox.
From Detroit, the Sox will jump into Chicago and meet the White Sox. From Detroit, the Sox will jump into Chicago and meet the White Sox. From Detroit, the Sox will jump into Chicago and meet the White Sox.

LEWIS MEETS HOUCK
FOR \$8,000 PURSE

PARIS, May 11.—Harry Lewis, the American middleweight, will meet Leo Houck, another American, here tonight for an eight round, \$8,000 purse. Lewis is a trifle, being from the Lewis family, being from the Lewis family, being from the Lewis family.

PAPKE WILL FIGHT
SULLIVAN IN LONDON

LONDON, May 11.—The English promoter, announces that he has arranged a fight between Phil Papke, the American middleweight, and John Sullivan, the English champion, to take place here in London.

TOD SLOAN MANAGER
OF BELGIUM STABLE

BRUSSELS, Belgium, May 11.—Tod Sloan, formerly America's foremost jockey, has been named manager of the Belgian stable and will race there during the coming turf season.

Notes Gathered
Between Innings

The Sox got as many hits as the Nationals, but no two of them came in the same inning.

Swanmaker caught nicely again, but the high wind gave him little of trouble when it came to holding onto.

This is the last chance for Red Sox to gain on their horses for a month.

Mike Kahan, the former catcher and present captain Washington scout, watched the pastime from a box near the visitors' bench.

Engle is on the path of a pitched ball in the fifth. He said "ouch," which is a very mild utterance. Johnny Sadowsky.

Slender Street thought the bats were with him in the fourth. He hit a high one, but it came to the third. Engle caught it. Engle caught it. Engle caught it.

The ABLE MEN are much more inclined to recognize the truth that in the whole theory of our government the people's representatives are but their agents, and any method of exercising the elective franchise which will MAKE MORE EFFECTIVE THE POPULAR WILL is proper

Copyright, 1911, by American Journal Examiner

Your brilliant writings are doing an immense amount of good in this selfish world. More power to your pen!

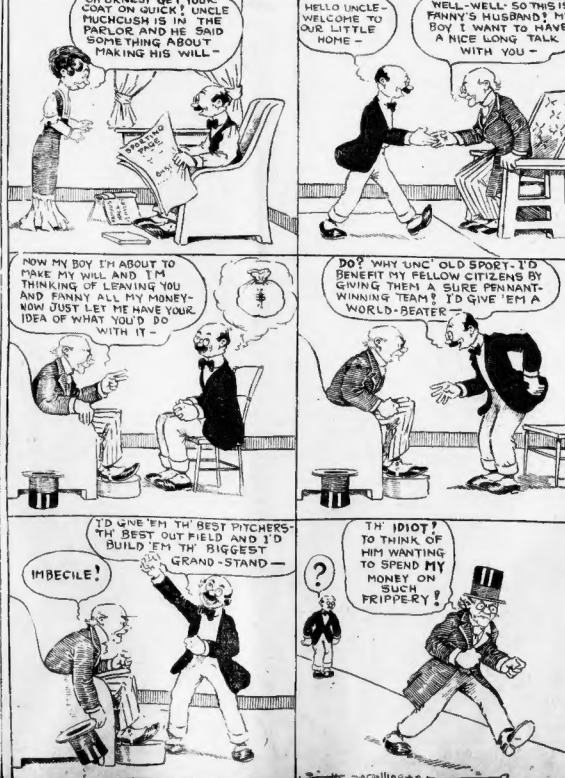

Respectfully, JOHN W. KOLLOCK

Wonder if we have a life upon another sphere,
Where we must suffer all the woe which is our portion here:
How Etern reigns, and is the truth regarded as a lie?
How Virtue bow'd, how broken down, like brutes left on the face to die?
How Wealth get all the honors there, and Poverty and Poverty disgrace;
How such it be, the lamp of hope sheds but a dismal ray,
To five or six is one to me, though sixty-fire to day.

By GARRETT P. SERVISS

THE earth is so sensitive to magnetism that, if we may believe Messrs. George Negro and Paul Combes, Jr., of the Geological Society of France, the next step in wireless telegraphy will be to throw away all batteries, all cumbersome apparatus of poles, towers and antennae; all accumulators of electric force and all the other paraphernalia of the present method. A hidden vein of copper ore was traced in the province of Salamanca, Spain, under the River Douro and beyond the Portuguese frontier. In northern France a layer of phosphate chalk has been similarly followed for a long distance underground. It is easy by the method to find the location of underground water.

These experiments are not alone in showing that the earth's magnetic signals can be transmitted through the ground from one point to another without the aid of wires. The only difference of electric potential between the sending and the receiving instruments, in the case of the earth, is the natural electric potential which the human voice can be transmitted most easily by the usual electric conducting wires.

Prof. James Combes and Negro go much further than this. They show that the earth can be battery-disposed with, and that the electric current can be sent to any ground and connected by a wire immediately to the earth itself, without any manipulation of the earth itself, without any manipulation of the earth itself, without any manipulation of the earth itself.

The natural currents of the earth are the result of the action of the earth on metals below the surface of the earth. The natural currents of the earth are the result of the action of the earth on metals below the surface of the earth. The natural currents of the earth are the result of the action of the earth on metals below the surface of the earth.
